ALUMNI REGISTER

1948

Published by the MIT Alumni Association
100 Massachusetts Avenue, Cambridge, Massachusetts 02139

Preface

Included in this Register are the names of all persons who have attended the Massachusetts Institute of Technology for one or more terms prior to November 1, 1947. The principal classification of the Register is the Alphabetical Living Section, which lists after each man's name, his class affiliation, the course in which he was last enrolled, the degrees he received from the Institute and his most recent occupation and address. If the year in which the degree was awarded is different from the class affiliation, the year of the award is indicated in parentheses after the degree. In order to extend the usefulness of the Register, students are included for the first time.

Every effort has been made to obtain correct addresses. The omission of an address indicates that none has been supplied or that letters mailed to the last known address have been returned as unclaimed. Information regarding incorrect or missing addresses and occupations is earnestly desired by the Alumni Office.

In the Alphabetical Living Section the State is omitted for all Massachusetts addresses.

A special feature of this 1948 Register is the War Record Section which will be the only record of alumni participation in the armed services of World War II. These war record data include the highest rank or rating attained, branch of service, dates of service, and any known decorations. The list of abbreviations pertinent to this section including the abbreviations for decorations may be found on page viii. The abbreviations of rank and rating follow the standards established by the armed forces. An asterisk before a name indicates that the man died in service in World War II. This section of the Register is known to be incomplete, since all the information contained therein is voluntary.

The Class Section includes the names of living and known-deceased former students through the class of 1947. The Alumni Association would appreciate learning of any corrections to these lists.

Students at M. I. T. and those former students with Army or Fleet Post Office addresses are omitted from the Geographical Section. If more detailed information regarding any individual in the Class or Geographical Sections is desired, reference should be made to the Alphabetical Section.

DONALD P. SEVERANCE.

NOTES:—1. The letter A preceding the above United States Navy ratings signifies Aviation; the letter C, Chief Petty Officer; the combination AC, Aviation Chief Petty Officer.

The numeral 1, 2, or 3 following the above United States Navy ratings signifies Petty Officer First, Second, or Third Class, respectively.

The notation S1, S2, F1, or F2 signifies Seaman First or Second Class, and Fireman First or Second Class, respectively.

2. The numeral in parentheses after a decoration indicates the number of times awarded if more than once.

The letter A or N after a decoration indicates that it was awarded by the Army or Navy, respectively, rather than that branch of service to which the man was attached.
